SUMMARY

As a recent graduate with a strong passion for cybersecurity, Possess a diverse skill set and a deep understanding of various domains. I have a high level of proficiency in programming languages, operating systems, database management systems, and network protocols. Committed to upholding the highest professional standards and prioritizing the safeguarding of sensitive information. I am driven by the opportunity to apply my skills, knowledge, and passion to secure digital environments, protect valuable assets, and mitigate risks. Seeking new opportunities to contribute my expertise and make a meaningful impact in the field of cybersecurity.

EXPERIENCE

Cyber Security Specialist, 03/2022 - Current
Freelancng - Remote, Pakistan
- Identifying potential security challenges that could arise in new systems
- Collaborated with a team to develop a secure environment for a project, ensuring data confidentiality and integrity
- Conducted research on emerging technology risks in cloud computing and provided recommendations to overcome potential challenges
- Assisted in implementing security measures and best practices to enhance the overall security posture of the project
- Enhanced expertise in identifying and addressing emerging security threats
- Worked closely with cross-functional teams to identify vulnerabilities and implement appropriate solutions.
- Successfully processed hundreds of cyber tips, receiving information and initiating investigation for speedy resolution.
- Updated network systems to support confidential company operations and eliminate hacking.
- Identified opportunities to improve network, application and cloud security through implementation of secure frameworks.

Cyber Security Intern, 09/2022 - 12/2022
Stifle - Remote
- Analyzed system risk to identify and implement appropriate security countermeasures.
- Audited networks and security systems to identify vulnerabilities.
- Used penetration testing tools to identify weaknesses in security systems.
- Worked closely with fellow security personnel to remedy and alleviate technology issues.
- Learned about latest security threats from blogs and online publications.

LANGUAGES

Urdu: First Language

English: B2

Upper Intermediate

SKILLS

- Black Box Testing Tools
- Computer Programming in [Python, Java, HTML/CSS, Django]
- Certified Ethical Hacker (CEH)
- Regulatory Compliance and Documentation
- Ethical Hacking With [Metaspolit, Nmap, Splunk, Wirehark, OSINT Tools etc..]
- Harden Network and Server Infrastructure
- Resource Allocation
- Managing Security Breaches
- Monitoring Computer Viruses
- Telecommunications Systems
- Protecting Networks
- Reporting and Documentation
- Critical Thinking
- Microsoft Office
- Problem Resolution
- Maintenance & Repair
- Organizational Skills
- Supervision & Leadership
- Computer Skills
- Team Building
- Customer Service
- People Skills
- Team Management
- Good Work Ethic
- Planning & Organizing
- Data Management
- Flexible Schedule
- Training & Development
- Reliable & Trustworthy

EDUCATION AND TRAINING

Bachelor of Science : Computer Science, 06/2023
COMSATS University - Sahiwal, Pakistan
- Major in Cyber Security
- Completed professional development in Django
- COMSATS Media Society presendent

CERTIFICATIONS

- Introduction to Cybersecurity Tools Cyber Attacks (IBM)
- IT Security: Defense against the digital dark arts (Google)
- Introduction to Cybersecurity (CISCO)
- Ethical Hacking From A-Z: Beginner To Expert Course (Udemy)
- Start Kali Linux, Ethical Hacking and Penetration Testing! (Udemy)
